

Attestation LCO2 in 2026

Air Liquide hereby confirms that the company:

ANSUL Solutions B.V.
Platinastraat 15
8211 AR LELYSTAD

was delivered in 2026 by Air Liquide liquid carbon dioxide certified ECO ORIGIN™

ECO ORIGIN™ certifies according to ISO 14021 that your CO₂ supply is produced using 100% renewable sources and eregies.

All along the lifecycle, from molecule origin to delivery, emissions are tracked and audited by an independent body who verifies the reduced carbon footprint of ECO ORIGIN™ gases according to ISO 14067 (cradle-to-customer gate with options).

The certificate granted to Air Liquide and issued by the external independent body is available under the following address:
<https://nl.airliquide.com/industriële-gassen/duurzame-industriële-gassen/green-origin>

(ISO 14021 and ISO 14067 of ECO ORIGIN CO₂)

Your purchases of ECO ORIGIN CO₂

kg.

Carbon Footprint of the ECO ORIGIN CO₂
to be reported in your scope 3 Upstream

ECO ORIGIN CO₂

to be reported in your scope 1 and/or scope 3 Downstream
thanks to biogenic CO₂ sourcing by Air Liquide.
